ROADMAP TO MANUFACTURING EXCELLENCE

Due to the central position of production operations in a manufacturing firm, it is important to understand how it is linked with the overall business strategy and various other functional strategies of the firm for achieving strategic objectives.

The Roadmap to Manufacturing Excellence program provides an inclusive framework for improving and upscaling your firm’s operations. This 4-day hands-on program provides insights on aligning production operations with business strategy of a firm and identifying clear objectives and specific improvement initiatives that can effectively be pursued to achieve manufacturing excellence in your firm.

PROGRAM BENEFITS

The program provides a clear roadmap to follow in order to implement cutting edge concepts for designing, maintaining, and controlling production operations. By the end of the program, the participants are expected to have learned

- The need for defining a clear ‘manufacturing / operations strategy’ and its pivotal role in implementing business strategy of a manufacturing firm
- How to develop actionable plans for achieving manufacturing excellence and their implementation in an organizational setting
- The manufacturing excellence concepts such as lean manufacturing, six sigma, manufacturing resource planning, just in time manufacturing, supplier management, total productive maintenance, and quality circles
- How to develop systems for continuously improving production operations

“The course is designed to meet its objectives of giving a comprehensive understanding on usage of modern industrial concepts and tools to achieve manufacturing excellence”
