ADVANCED CORPORATE FINANCE
Crafting Strategies to Create Shareholder Value

Sound financial management is an integral component of business strategy. Designing a consistent, cohesive corporate investment and finance strategy can create and sustain a viable competitive edge. Unfortunately, many senior managers are unaware of the linkages between strategic and financial management and do not realize that a strategic vision must be accompanied by the understanding of how it will generate financial value.

The program on Advanced Corporate Finance helps build understanding of the interactions between a firm’s investment decisions, the business and operational strategies. Through case-studies and interactive discussions, participants gain exposure on how to optimize and integrate investment and financing decisions to maximize shareholder value. The program is designed so that participants develop a deeper understanding in applying the principles and frameworks of finance and gain greater confidence in making strategic financial decisions.

BENEFITS
Over the course of the program, participants will:

- Explore various aspects of capital budgeting and creation of value
- Unravel the complexities of financing decisions and tactics & procedures in financial markets
- Measure the impact of financing strategies on firm’s cost of capital
- Learn about company valuation - assessing worth of a business
- Gain exposure to financial implications in mergers, acquisitions and restructuring
- Develop insights on global finance

“T must say, I am thoroughly impressed. This is my first REDC course and I am definitely coming back. The course was very well structured and the effort to balance theory and practice was really commendable. Must appreciate the hard work put in by the conference planner, staff and instructors”
