SUPPLY CHAIN MANAGEMENT

Markets are becoming more and more complex and dynamic. Globalisation has led to evolution and augmentation of supply chains beyond traditional boundaries. The impact of these factors has made supply chain management increasingly challenging and vital to organisational performance. Integrated planning across purchasing, manufacturing and distribution is integral for the execution of shipments to meet customer commitments. Proactive and timely demand forecasting has implications on inventory and vendor management as well as competitiveness of an organisation.

This 4-day immersive programme on Supply Chain Management emphasizes the strategic importance of cross functional links and provides insights on strengthening these links to establish company’s competitive advantage.

BENEFITS

During the programme, the participants get exposure to contemporary tools and exercises/simulation focused on supply chain management. Topical coverage includes:

- Building Integrative Partnership Across the Supply Chain
- Forecasting and Uncertainty Management
- Inventory Planning
- IT Enabled Supply Chain
- Quick Response Retailing/Manufacturing
- The Bullwhip Effect
- Aligning Incentives Across the Supply Chain
- Managing Procurements
- Distribution Logistics and Transportation Planning

“...A highly interactive programme that really broadened my vision and understanding of the supply chain concepts. Exposure to the cross-industry practices helped further, especially for someone like me who has an IT background.”
