

GROWTH AND CONTINUITY IN FAMILY-RUN BUSINESSES

April 28 - 30, 2025

Suleman Dawood
School of Business

Our business landscape is rich with inspirational accounts of entrepreneurs, who single-handedly built large business empires in the course of a lifetime. However, most of these success stories face major challenges, during the transition to the new generation.

This focused programme is developed for progressive large families aspiring to understand and address the underlying complicated, sometimes sensitive causes of disruption in family-owned and family managed business. Experience has shown that family business can lead to sustainability by formalising systems and procedures related to ownership, business and family.

BENEFITS

During the programme, the participants will learn:

- The interrelationship between ownership, business and family
- Key challenges related to growth, professionalisation, internationalisation and sustainability of the family business
- Succession and generational transition
- How to develop the family into a cohesive group with a shared vision
- How to develop procedures, policies and mechanisms for management control and financial oversight
- Understand and control factors that hinder the performance of professional managers in family business with a focus on good governance

WHO SHOULD ATTEND

The programme is designed for family members (including children, siblings and spouses) and non-family executives of family businesses. Group participation of more than one family board members ideally from two or more generations is encouraged.

SPECIAL FEATURES

The programme has been developed by the LUMS Faculty; specifically in the context of Pakistani Family-Run Businesses and draws strength from locally developed content and cases that take into account our cultural, social and economic dimensions.

Enhanced learning through enriching and thought-provoking discussions using case studies, interactive lectures, guest speaker sessions and small group exercises.
